Technology Libraries

Hosted at KISTI

Seoul, South Korea August 6th and 7th, 2026

ICSTI invites members and STI colleagues to the 2026 Annual Conference, *Ensuring Scientific Quality and Integrity in the Age of AI*. The two-day event will include a member General Assembly, business meeting, and a day of workshops co-hosted with the IFLA SciTech committee. This year's conference will explore the technical, legal, and governance frameworks needed to safeguard research quality, integrity, and equity as artificial intelligence becomes embedded in scientific information systems.

The event will feature two open workshops: “Analysis of Scientific Text: Strategies and Use Cases,” with hands-on experience led by Wikimedia Korea, and “Trust, Integrity, and Governance for STI in the AI Era,” addressing the strategic alignment on governance, accountability, and policies for trustworthy STI services.

If you have questions concerning this event or are interested in giving a presentation, please contact ICSTI's Executive Manager, Addie Cox (addie.cox@icsti.org).
